## OUR STORY

Founded in 1952 by Garvice D. Kincaid, Lexington Insurance Agency began as a family-owned business. It became employee-owned in 2004 when it was purchased by four of the agents.

In 2009 Lexington Insurance Agency joined the Keystone Insurers Group®, one of the largest independent insurance agency networks in the country. This partnership allows Lexington Insurance Agency to provide you with attentive personal service backed by the national power of Keystone.

Today, Lexington Insurance Agency is still locally owned, independent and providing the same superior service our clients have come to expect from a leading insurance agency.

## A BETTER WAY TO BUY INSURANCE

As a member of Keystone Insurers Group®, Lexington Insurance Agency has access to a vast array of companies, resources and exceptional support. As a part of Keystone, we are joined by hundreds of other agencies like ours. This means Lexington Insurance Agency can meet all of your insurance needs, whether it be property, casualty, health or life insurance.

Keystone holds its members to the highest possible ethical standards, financial guidelines and underwriting protocols, giving you additional confidence when it comes to trusting your protection to Lexington Insurance Agency.
